Subject: PRAMP 2014-2015 Technical Review of Data

Attached is the Peace River Area Monitoring Program (PRAMP) technical review of air quality monitoring data for 2014-2015.

The report was prepared by Matrix Solutions Inc. and includes analysis of the continuous monitoring station data for trends, a comparison to monitoring results to other stations in Alberta, a summary of volatile organic compound sampling, and a correlation of odour complaints to monitoring data. PRAMP's Board of Directors reviewed and edited the report. If you have questions please forward them to the PRAMP Technical Program Manager at pramptech@gmail.com, or Karla Reesor, Executive Director at 403.807.2995.

Yours sincerely,

A handwritten signature in blue ink, appearing to be "KR", is written over a light blue horizontal line.
