Subject: Re: Canister arrived, past hold time

Hi Jessica,

Thank you for letting us know. Please go ahead to analyze the canister, including RSCs. This sample was collected during the canister system routine check and not a real canister event. We will only use the results as a reference.

Thanks,

Lily

Good morning PRAMP,
We've received a canister this morning from the 986 Station, and it is passed the 7 day hold time for RSCs. IT was sampled on March 20, and today is day 7. Unfortunately, it will not have a chance to be analyzed today.

Did you still want us to analyze the canister for RSCs? The VOC and C1C4 are fine.

Regards,
Jessica
