

Update from the AAC

PRAMP Board Meeting
February 16, 2023

AAC Vision and Mission

VISION

Albertans have access to reliable and credible air quality information so that they can make informed decisions to protect their health and the environment.

MISSION

The Alberta Airsheds Council is a formal alliance dedicated to serving our members by leveraging resources, building capacity, and facilitating strategic collaboration with external stakeholders.

EXECUTIVE

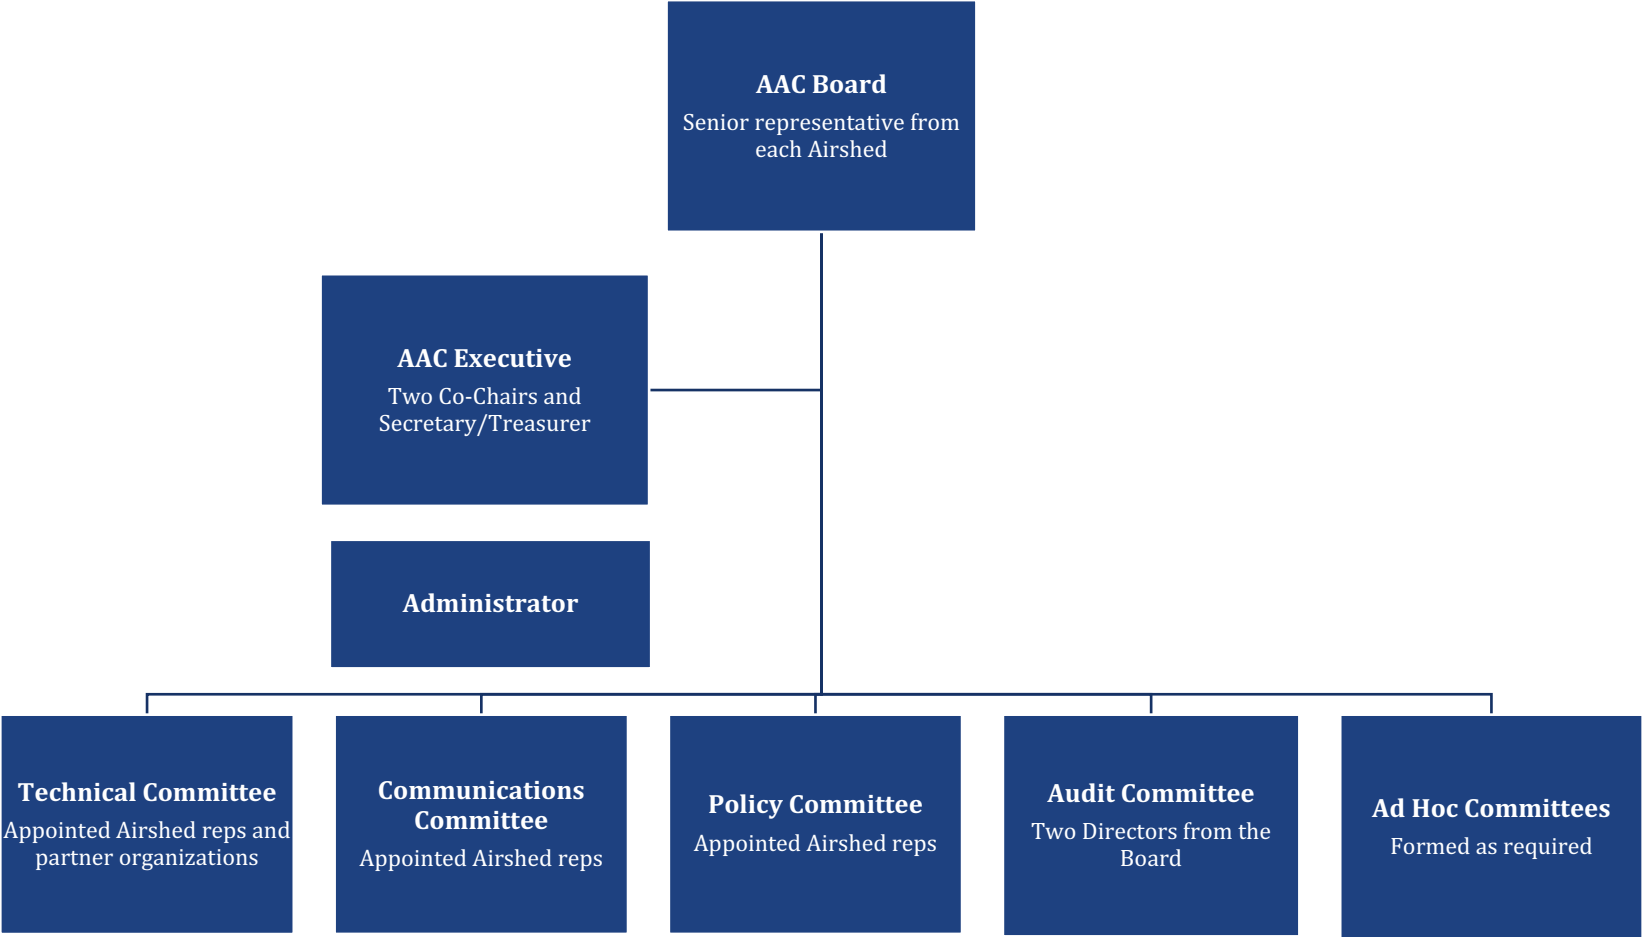

Nadine Blaney, Co-Chair, Fort Air Partnership (FAP)

Karla Reesor, Co-Chair, Peace River Area Monitoring Program (PRAMP)

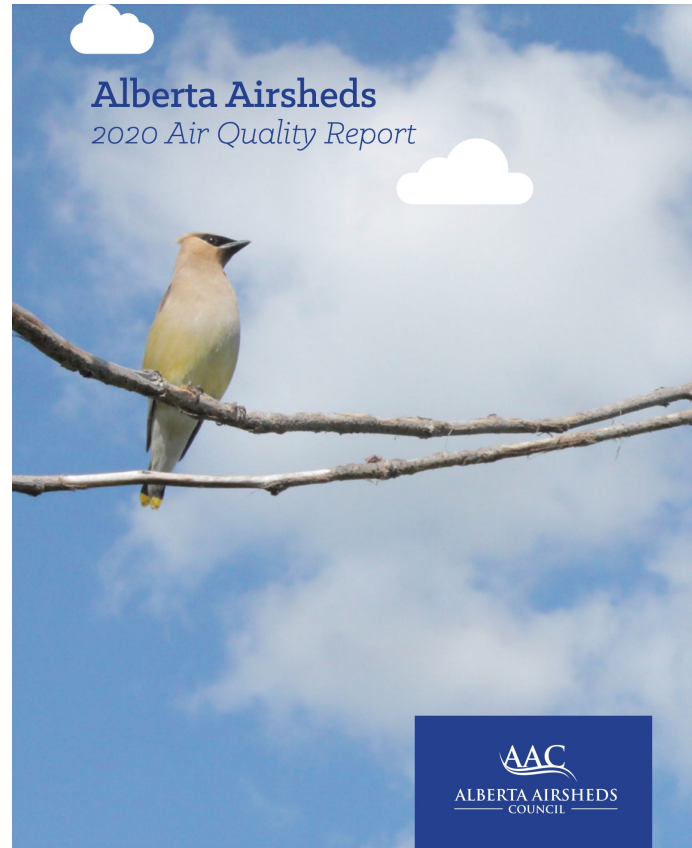

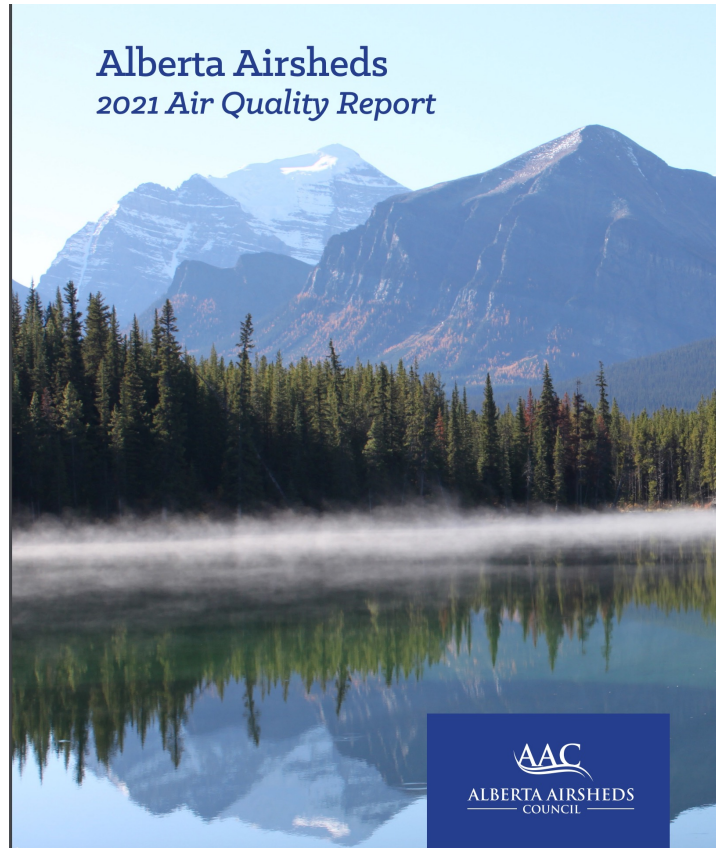

Lorna Morishita, Secretary/Treasurer, Palliser Airshed Society (PAS)

AAC Structure

AAC Air Quality Reports

- ✓ Plain language
- ✓ Focus on visuals
- ✓ Written for Albertans

**2022 Report will
be available in
April 2023**

AAC Conference 2024

Objectives

1. *Share leading practices and innovative approaches related to air quality in the areas of Technical Leadership, Education & Outreach and Regulatory Change.*
2. *Advance understanding of and support for the Alberta Airshed model.*
3. *Provide a forum for air quality stakeholders to learn about and collaborate on shared interests.*

Status

- Assessing locations – Edmonton, Canmore, Fort McMurray
- Researching topics and speakers
- Targeting Fall 2024

Innovative Air Education Grant

EPA invited AAC to apply for \$300K grant

- Objective: Reduce transportation emissions, particularly in urban areas
- Part 1: Conduct research about messaging and strategies to reach key audiences
- Part 2: Implement strategies
