

## AQHI Station Consultation

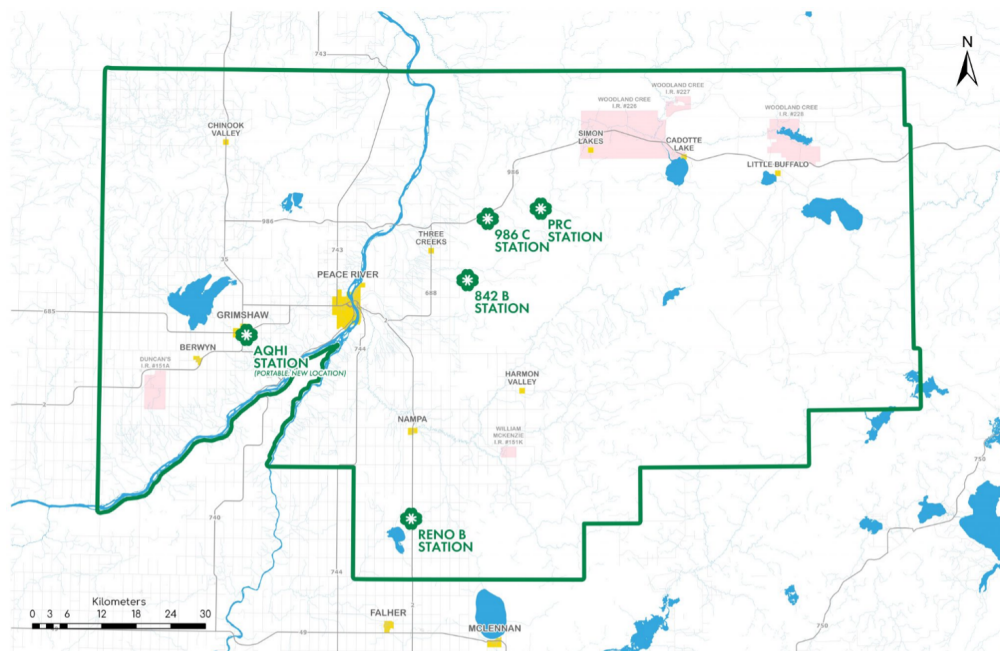

Air Quality Health Index (AQHI) Station Consultation The Peace River Area Monitoring Program (PRAMP) operates 5 air monitoring stations in the Peace River area. One of the stations – the Portable Air Quality Health Index (AQHI) Station – is moved to a new location in the area every 18 to 24 months. Moving the station provides air quality information for more locations in the region. The station has been in Grimshaw since November 2021 and prior to Grimshaw, the station was located near Cadotte Lake. PRAMP is planning to move the Portable AQHI Station in the fall of 2023. This short survey is part of PRAMP's consultation process to identify and assess possible locations for the station. If you have questions about the survey or PRAMP's air monitoring program, please contact PRAMP's Technical Program Manager, Mike Bisaga at [pramptech@prampairshed.ca](mailto:pramptech@prampairshed.ca).
